## Instructions:

**Step 1:** Iron Heat n Bond Fleece Fusible High Loft to wrong sides of exterior coin purse fabric following manufacturer's instructions.

### Heat n Bond Fleece Fusible High Loft Instructions:

1. Pre-heat iron to wool (medium heat) setting with steam.
2. Place the rough side of the interfacing onto the back (wrong side) of the fabric to be bonded.
3. Cover with a light, dry pressing cloth. Press and hold iron with medium pressure for 10-15 seconds. Repeat by lifting iron to new area and pressing, slightly overlapping previous area until entire surface is bonded.
4. Allow pieces to cool. If more ironing is needed iron an additional 5 seconds from front of the project.

### Step 2: Using the Sizzix Coin Purse die:

**Cut 2** - exterior fabric coin purses with adhered Heat n Bond Fleece Fusible High Loft

**Cut 2** - lining fabric coin purses

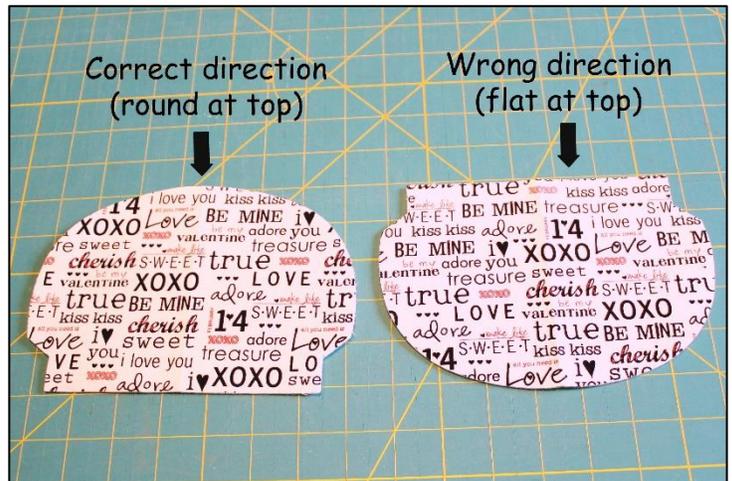

To cut out coin purses using the die and cutting machine, fold exterior fabric purse in half, wrong sides together. Place fold along the edge of Sizzix die that does not have a blade. Be careful...the blade is sharp! Sandwich the cutting die between two cutting mats being careful to keep fabric in place.

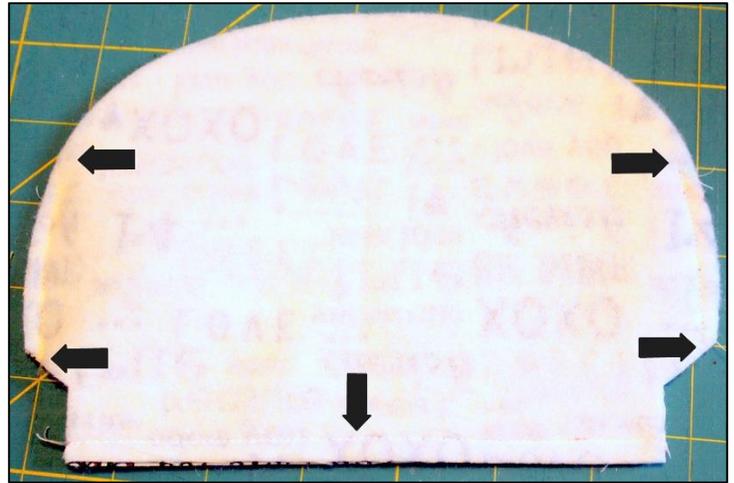

At a slight angle, run die with fabric through your cutting machine. Repeat to make a total of two exterior fabric purse pieces with Heat n Bond Fleece Fusible High Loft, and two lining pieces.

**Note:** If you're using directional fabric, be sure to place the folded fabric correctly on the die!

**Step 3:** With exterior fabric coin purses wrong sides together and using a 1/4" seam allowance, sew edges from the notch to edge of coin purse and along straight edge as shown. The top rounded area is not sewn.

Using a water-soluble marker helps to clearly mark the notch. There's two on each piece. (The notches are there, you just have to look for them because they are tiny.)

**Step 4:** Repeat Step 3's instructions on the lining fabric, but leave a 3" opening in the middle of the straight edge to enable turning it inside out.

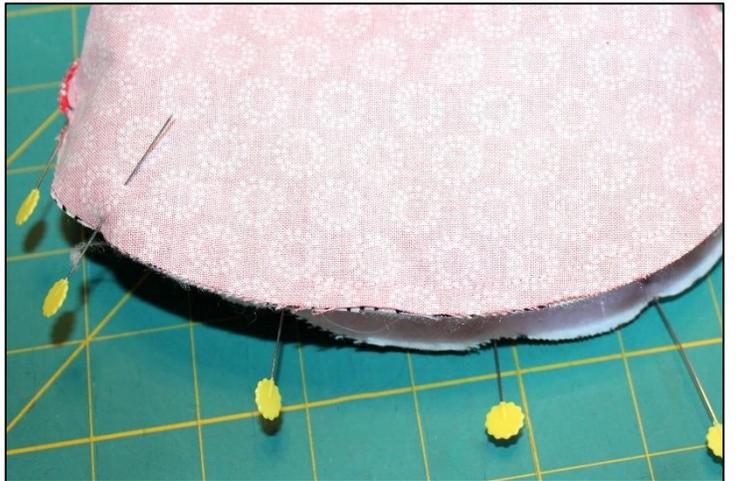

**Step 5:** Pinch the small unsewn opening together and match seams on both sides. Sew 1/4" seam allowance across edge as shown below. Repeat on the lining fabric.

**Step 6:** Turn exterior fabric coin purse right side out. Place exterior coin purse inside lining fabric coin purse, right sides together, lining up seams and top edge. Pin or use clips to hold in place.

**Step 7:** Begin sewing from center of coin purse and stop at side seams. Turn coin purse and repeat on other side. Do the same on the other side of the coin purse.

**Step 8:** Cut notches on the curved edge or trim with pinking shears.

**Step 9:** Turn coin purse right side out. Using a pointed tool, push the corners out. Press around the seam edges of coin purse. Press lower corners to create a flat bottom.

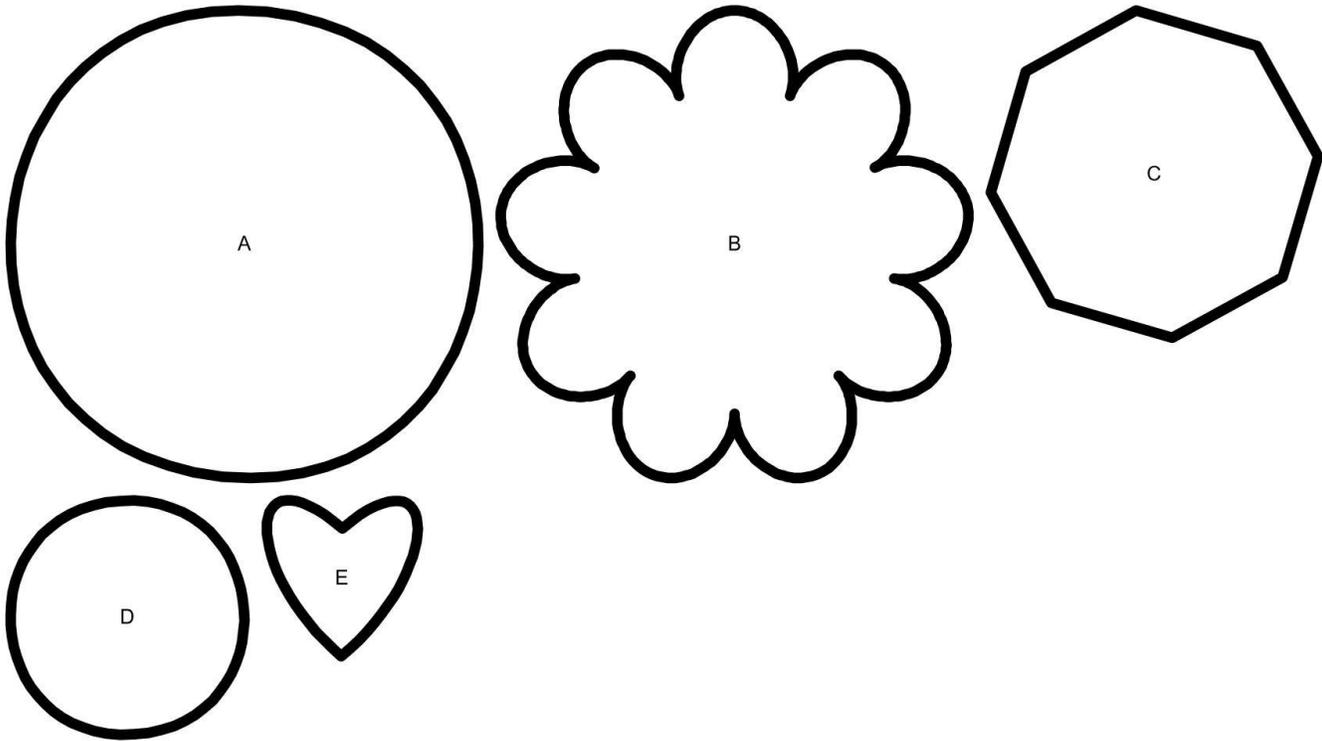

**Step 10:** Stitch lining opening closed with slipstitches or by folding in seams and stitch 1/8" from folded in edge.

**Step 11:** Apply glue in the slotted area of the coin purse frame on one side. Gently push edges of coin purse into the frame. Let dry. Repeat on other side of frame.

**Step 12: Optional - Attach flower to one side of coin purse.** Use Heat N Bond Fusible Interfacing - Light Weight on the wrong sides of fabric to add stability. Cover fabric and interfacing with pressing cloth. Press and hold iron with medium pressure for 10-15 seconds. Repeat and overlap to cover all areas. Let cool. Cut out flower shapes using fabrics, felt, lace, etc. Layer pieces with Fabric Fuse between each layer to hold them together. Let dry. Apply flower to coin purse with Fabric Fuse. Let dry.

## Coin Purse Pincushion:

### Supplies:

Therm O Web Fabric Fuse Adhesive  
Heat N Bond Fusible Interfacing - Light Weight  
Heat n Bond Fleece Fusible High Loft  
Sizzix Coin Purse Die, 2 cutting mats, and cutting machine  
Purse frame to fit coin purse  
Heavy-duty glue like Beacon 3-in-1 or E6000  
Oliso Iron  
Aurifil Thread

2 - 4" x 9" pieces of Heat n Bond Fleece Fusible High Loft  
2 - 4" x 9" fabric for exterior coin purse  
2 - 4" x 9" lining for coin purse

**Step 1:** Create the small coin purse following the instructions above for the larger coin purse.

**Step 2:** Attach small flower, if desired, following flower assembly instructions above. Let dry.

**Step 3:** Fill the finished coin purse with walnut shells.
